Bevacizumab (Avastin™) Pre-Filled Syringes Now Available

AN ALTERNATIVE FORM OF THERAPY FOR YOUR PATIENTS

Wedgewood Pharmacy, one of the nation's largest compounding pharmacies, announces the availability of Bevacizumab (Avastin™) Pre-filled Syringes. Sold as individual syringes, each 25mg/ml syringe is drawn up in a Class-100 laminar flow hood to assure sterility and quality. Pre-filled with 0.12ml for easy and accurate 0.05ml dosing, these syringes are a cost-effective therapy option when treating individual patients.

"When physicians cannot easily obtain the medication they need, a capable compounding pharmacy becomes the best source for the desired treatment," said George Malmberg, RPH, CEO of Wedgewood Pharmacy. "We are glad we can offer retinal specialists convenient, pre-filled syringes of Bevacizumab for their patients."

Trusted by over 17,000 doctors nationwide, Wedgewood Pharmacy specializes in compounding medications that would otherwise be difficult to obtain. For additional information about Wedgewood Pharmacy, Bevacizumab, or other compounded preparations, please contact us at 1 800-331-8272, 8am-8pm EST Monday through Friday and 9am-5pm EST on Saturday.
